To arrive no later than 7th October 2017.

If you've never tried field archery before this event is a good introduction. The round is 28 (2x 14 with a lunch break in between) animal picture targets that are shot at from marked distances in the range of 20ft to 60yds. The distance shot is in direct proportion to the size of the scoring area, of which there are two - kill and wound. For each target you will have a maximum of three shots to get a scoring arrow, and the scoring is as follows:

- 1st arrow kill 20 wound 18
- 2nd arrow kill 16 wound 14
- 3rd arrow kill 12 wound 10

White Mark Bowmen's course is in a reasonably flat woodland setting that may be muddy depending on the weather and so trainers or walking boots are recommended.

Tea and coffee will be available.
